Low maintenance living is just what you want when a fantastic beachside lifestyle is almost on your doorstep.

At the rear of a small group of six, this ultra modern townhouse built in 2015 offers covered parking for two via a drive-through carport (under the main roof) to a single garage with roller door and internal entry.

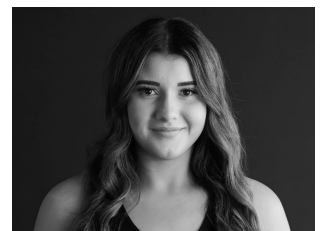

While the tiled open plan living area has a cool and classy vibe and all three airconditioned bedrooms include robes, it is the enticing extras which gives this townhouse an edge.

An appealing outdoor entertaining area adjoins neat landscaped gardens for a fresh touch of easy-care
